cd-rom-produktion  
hörbücher

*Discreet and special → For individual requirements the MADRID system is the ideal solution. With its simple lines – the aluminium frames are only 5,5 mm thick – it leaves you free to come up with your own personal design. In addition to completely assembled signs, individual elements are also available which can be assembled into new types of signs. In combination with the self-designed text panel in the form of a paper inlay, the MADRID offers an outstandingly flexible solution for all really special requirements.*

Deckenabhängiger  
suspended direction sign

Hauptwegweiser  
main direction sign

Fahnschild  
flag mounting sign

Etagenwegweiser  
floor direction sign

Türschild  
door sign
