

OCTAfabric and OCTApanel

OCTAfabric and OCTApanel are thin, elegant free standing displays for an effective double sided presentation. OCTAfabric allows printed fabric to be easily and quickly changed without tools. The system groove allows for the attachment of spotlights, literature racks or display shelves. OCTApanel accepts graphic panels up to 4 mm. The panels can be attached with double sided adhesive tape or magnetic tape (sold separately) that is applied to frame and graphic panel. OCTAfabric and OCTApanel can also be supplied in custom sizes for larger format graphics.
